DOCUMENTATION

**HELLO, THANK YOU FOR PURCHASING OUR LOADING PAGES FILES.
WE HAVE PREPARED A SHORT DOCUMENTATION FOR YOU ON HOW TO USE IT.
WE'D LOVE TO SUPPORT YOU WHEN YOU NEED HELP. PLEASE CONTACT.**

INSTALL PHP ADMIN PAGE

INSTALL PHP ADMIN PAGE

What you need for installation is
hosting and domain account.

We will explain step-by-step installation
for the virtual fair and admin panel.

STEP 1 : CPANEL & UPLOAD

First of all, log in to Cpanel in your hosting account.

Go to "File Manager". After coming to the file containing your domain address;

Upload the "PhpPageFiles.zip" file in the "PHP Admin Page" file to this folder.

PHP Admin Page >

database.sql

PhpPageFiles

STEP 2 : CREATE DATABASE

Create database, user and password information from the "MySQL Database" menu in Cpanel.

You can find many videos about database installation. Example;

<https://www.youtube.com/watch?v=nVnGRhW5LY8>

You can create database information by performing the steps in the video one by one.

Be sure to write down this information (database name, username and password).

It will be needed in the next steps.

STEP 3 : UPLOAD SQL FILE

We will upload the "database.sql" file in the "PHP Admin Page" file to the database you have installed.

Login to the "phpMyAdmin" button in cPanel.

Select the database you created from the menu and click the "Import" menu. With "Choose File" select "database.sql" in the "PHP Admin Page" file and upload it.

Sample video about SQL Import;

<https://www.youtube.com/watch?v=jW5lrS6EUPM>

Don't forget to select the database name you created in phpMyAdmin on the left.

FINAL : UPDATE DB.PHP

Among the files we extracted from the PhpPageFiles.zip file is the "db.php" file. We will add your noted database information here.

Delete the part that says DATABASENAME in the "db.php" page and write your database name. Type your database username in the USERNAME section and your password in the PASSWORD section.

Do not delete the " " sign while writing the texts written between the " " signs.

```
<?php
// Database SQL Informations
try {
    $mysqli = new PDO("mysql:host=localhost;dbname=DATABASENAME;charset=utf8", "USERNAME", "PASSWORD" );
} catch ( PDOException $e ){
    print $e->getMessage();
}

if ($mysqli) {
```

INSTALL SUPPORT PHP ADMIN PANEL

We can support you remotely during initial installations.

If the installation fails, you can send us an e-mail.

" info@virtualoader.com and virtualoader@gmail.com "

If you send an e-mail to our two e-mails, we can help you faster.

MANAGEMENT PAGE USAGE

MANAGEMENT PAGE USAGE

To manage your virtual fair, add " [/login.php](#) " at the end of your virtual fair address. (If [index.htm](#) is written at the end of the address, delete the text [index.htm](#) from the address and add " [login.php](#) ").

Type in the browser address bar as in the example.

<https://vrlogy.co/login.php>

MAIL : demo@demo.com

PASSWORD : [123456789](#)

You can change your username and password from the panel.

1. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
2. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
3. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
Video	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>

Stand

Note

Note: The large size of your videos may cause the virtual fair to open slowly. You should prefer videos and images with low resolution.

VIEW STAND

You can see the changes you have made with "View Stand". This button will take you to the stand where you made the change.

The screenshot shows a web application interface for managing a virtual stand. The interface is split into two panels: "Stand 1" (configuration) and "Stand" (preview).

Stand 1 Configuration Panel:

Section	Select Image	Upload
Logo	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
1. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
2. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
3. Image	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>
Video	<input type="button" value="Dosya Seç"/> Dosya seçilmedi	<input type="button" value="Upload"/>

Stand Preview Panel:

The preview panel shows a 3D rendering of a virtual stand. It features a checkered floor, a ceiling with a checkered pattern, and several display elements. A large screen on the left displays "VIDEO" with a play button icon. To the right, there are two smaller screens displaying "LOGO" and "1200 X 1920". A potted plant is visible on the right side. Three yellow circles with numbers 1, 2, and 3 are overlaid on the preview, corresponding to the sections in the configuration panel. Below the preview is a green "View Stand" button.

Note: Note: The large size of your videos may cause the virtual fair to open slowly. You should prefer videos and images with low resolution.
